

SMALL ENTREPRENEURIAL
AND FUNCTIONAL SPACE

Emerging Commercial Applications for Small Satellites

When: Tuesday, March 24, 2009

Time: 9 AM-4 PM

Where: Stanford University, Palo Alto California

Workshop Description:

The successful design and development of very small, entrepreneurial satellites is leading to a broad discussion surrounding potential commercial applications and educational opportunities across a range of areas. This workshop will bring together a select group of space professionals, entrepreneurs and potential customers to explore and discuss emerging payloads, markets, educational applications and the business case for these spacecraft.

Presenters include:

- **Bob Twiggs**, small spacecraft pioneer, professor emeritus Stanford University and co-founder and Space Systems Engineer SEF Spaceworks, Sunnyvale, California;
- **Robert Zee**, Space Flight Laboratory, University of Toronto Institute for Aerospace Studies, Toronto, Canada;
- **Craig Clark**, Clyde Space Ltd, Glasgow, Scotland; and
- **Charles MacGillivray**, Manager Nano-Satellite Programs, Boeing, Huntington Beach, California.

Registration Fee:

\$149 general / \$99 university (includes workshop materials and lunch). [Click here to register](#). Registration deadline is Monday, March 17, 2009. **Space is limited so register early.**

Questions:

For general questions contact Jeffrey Manber, SEF Spaceworks. 202-413-0621, jeffrey.manber@sefspaceworks.com

Registration questions/issues should be addressed to bflexter@sefspaceworks.com.

Sponsors:

SEF Spaceworks; Stanford University, Department of Aeronautics and Astronautics; Aviation Week & Space Technology, Belcan and Kentucky Space.
