2010 Internships & Space Grants

GSFC can help you meet your diversity, workforce, and pipeline goals AND you can help GSFC do the same

- **Evolving Process in 2009, 2010, 2011**
 - Mentors write up projects; students respond to projects; mentors select 0 or 3-5 highly qualified candidates for each project
 - Sampler from 2009 is available where application will be posted:

2010 Internships & Space Grants

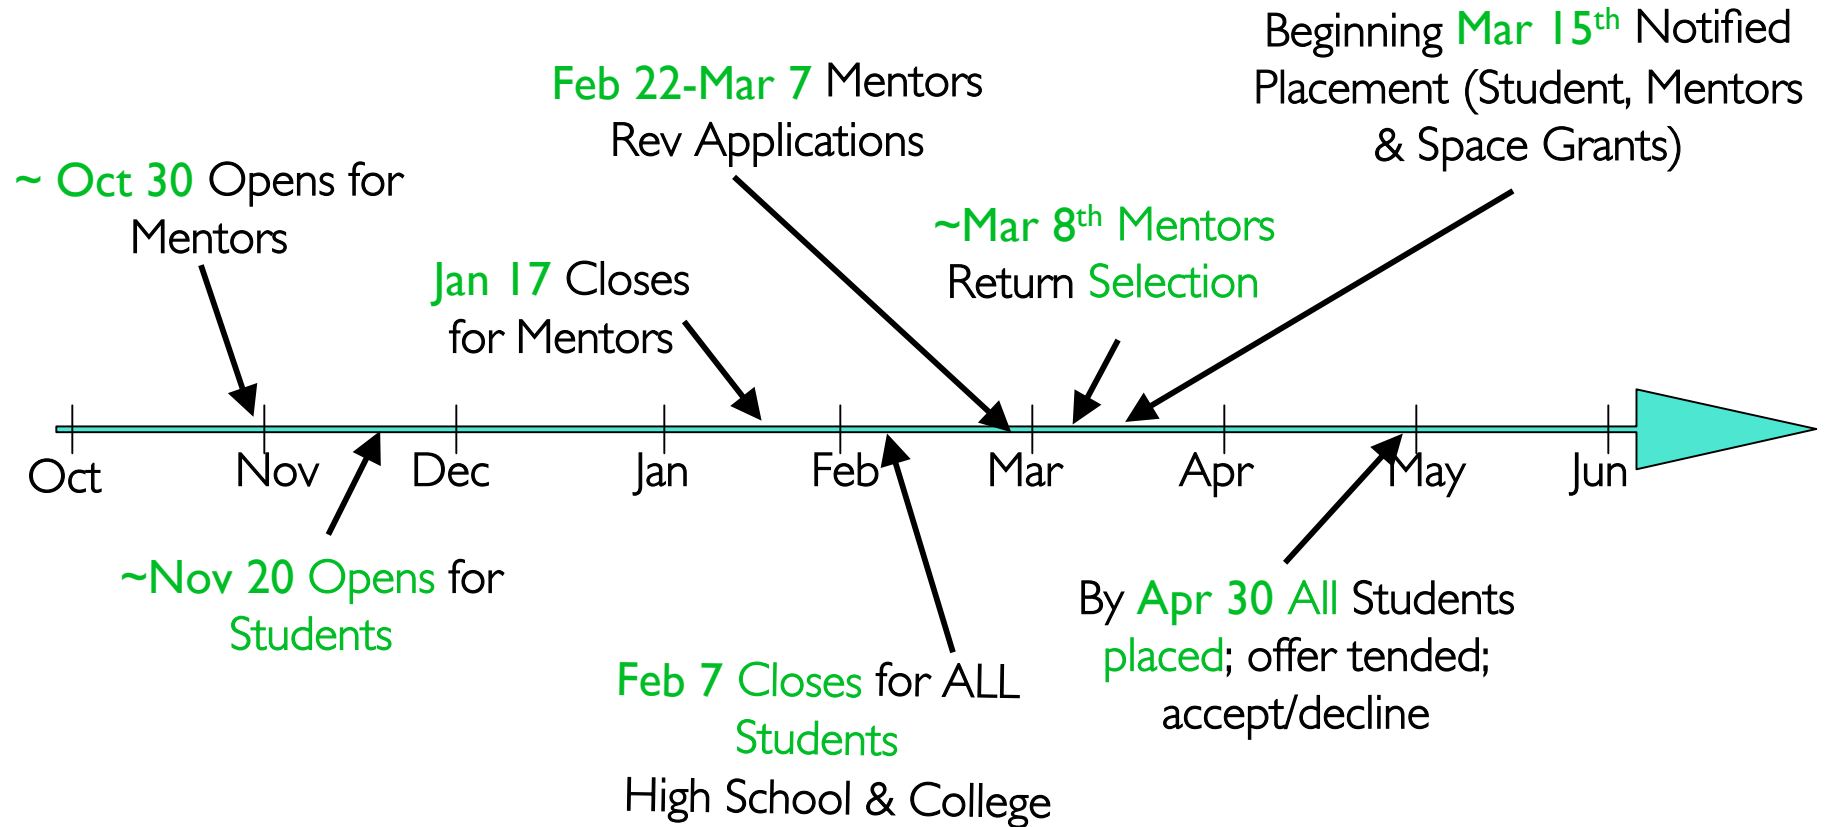

Focus on Recruitment and then Retention of highly qualified students, especially **minorities, women**, students with **disabilities**

- *Recruit individuals for specific projects*
 - GSFC provides list of projects in mid to late Nov; monthly updates
- *Give advice and guidance to student(s) as they complete project applications*
- *Nominating faculty write strong LOR for student package with specific mention of space grant connection*
- **Send names** of student and faculty member, **resume** of recruited students, **areas of interest** to **Dave Rosage**
- *Set aside block of funds for placements at GSFC*
 - Housing + stipend ~7K/student
 - Selected students placed and funded up to maximum allotment
