

Dear Space Grant Directors and Coordinators,

The links below provide access to the **Virtual Hill Meeting Data Collection**, Results, and Summary sites. The first link is to a series of short meeting summary questions - [HILL MEETING LOG DATA INPUT](#); the second link is to the compiled data of all directors/coordinators - [HILL MEETING LOG DATA OUTPUT](#); and the third link is to a graphical summary of the data statistics: [HILL MEETING LOG DATA SUMMARY](#).

After you've made a call, please take a few minutes to summarize the outcome on the Hill Meeting Log Data Input site. If there are calls to make, you can access useful information by scanning the compiled output data from meetings reported by your colleagues. The graphical summary of the data statistics should also be a helpful resource.

Feel free to contact Tom Devlin, at tdevlin@tigdc.com or 703-336-7253, if you have problems with the links or questions about the data.
